

ELECTRONIC ENGINEERING IS HIRING PART-TIME STUDENT EMPLOYEES

Make a difference by working with, installing, and troubleshooting lifesaving technologies that impact our everyday life.

Work with a variety of entities from factories to farms, police departments to hospitals, and large businesses like Principal and EMC!

The Work

Hands on technical problem-solving

Learn about and work on the spectrum of wireless communications – from radio infrastructure and systems to microwave and satellite systems to IP networking

A large variety of work in numerous locations and industries

Work alongside experienced technicians and learn how to on-site install, troubleshoot and run diagnostics

Learn new skills across an ever-changing industry

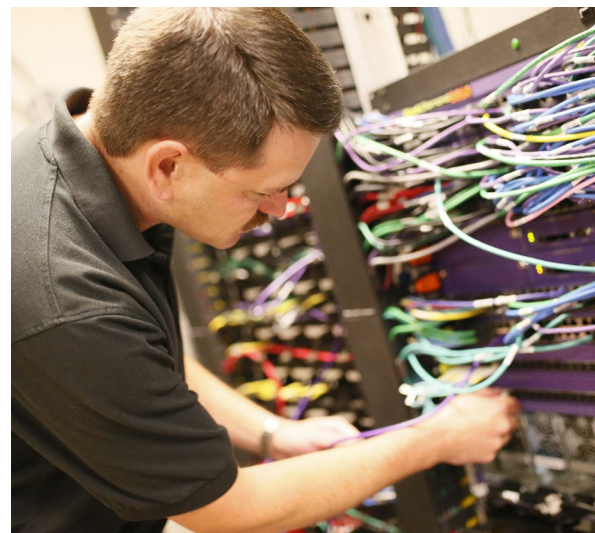

Your Team

Electronic Engineering is a 70+ year-old Des Moines-based company with statewide reach

We are locally owned and led and employ educated and skilled mentors and coworkers

We are a company that is dedicated to constant evolvment as technology advances

This may provide an opportunity to turn into full-time employment!
