

# H4 SL Camera Line

Built on the Avigilon H4 platform, the H4 SL camera line combines exceptional image quality, efficient bandwidth management, and artificial intelligence (AI) to provide a high-quality surveillance solution at an entry-level price point.

## Our Easiest-to-Install Camera Line

The H4 SL camera is our easiest-to-install camera yet, decreasing installation time by up to 50 percent. Available in bullet and dome formats, the H4 SL camera's modular design allows it to snap into the base of your choice.

## Advanced AI Technology

Using UMD technology, the H4 SL camera is able to continuously learn what typical activity in a scene looks like and then detects and flags unusual motion, without any predefined rules or set up.

## Exceptional Image Quality

Using LightCatcher<sup>™</sup>, Content Adaptive Infrared (IR) and Dual Exposure Wide Dynamic Range (WDR) technologies, our 1.3, 2 and 3 MP H4 SL cameras provide exceptional image quality in a broad range of lighting environments.

## Efficient Bandwidth Management

Using HDSM SmartCodec<sup>™</sup> Technology, the H4 SL camera is able to automatically optimize compression levels for regions in a scene to maximize bandwidth savings, minimize storage consumption and maintain high-quality imaging.
